Re: Proceeding Name: 13-86
Subject: FCC Reduces Backlog of Broadcast Indecency Complaints by 70% (More Than One Million Complaints); Seeks Comment on Adopting Egregious Cases Policy

I oppose any changes to the current FCC indecency standards. The FCC must continue to vigorously oppose all indecent content, even if brief or "fleeting."

By allowing or approving the broadcast of any indecent content, the FCC will send the message to American people that it does not value the families in America and is willing to contribute to a future culture of lower moral standards for our children, grandchildren and unborn future generations.

Last summer, the Supreme Court affirmed the FCC's authority to enforce policies prohibiting indecent broadcast content during hours when children are likely to be in the viewing or listening audience. The FCC must help us shield our children from the filth being spewed by Hollywood.

Relaxing the current policy hurts our families and children, and I urge the FCC to reject all proposals that would allow for the broadcast of expletives and nudity on FCC-licensed stations. The FCC has a responsibility to keep the public airwaves safe for American families.
